

# SHANDEE M.

High School Science  
Teacher  
*from Jamaica*

## PROFILE

I am a high school science teacher with over 15 years of experience teaching a wide range of science subjects to secondary students. My specialties are biology and chemistry. I am passionate about helping students to understand complex scientific theories, while breaking them down in an easy to comprehend way. I believe that hands-on experimentation and in-depth discussions serve to engage students, bringing science from theory and into real life.

## ACHIEVEMENTS

- Implemented Annual Science Fair at Priory High School, running now for 5 years
- Member of the Association of Science Teachers of Jamaica
- Teacher of the Year 2012 by the Parent Teacher Association in Saint Andrew Parish

## CREDENTIALS
